Privacy Collection Notice

The information in this form is being collected by Faculty of Science Research Office at the University of Melbourne. The information you provide is being collected in order to record administrative details of the applicant, and for assessment by the Faculty of Science Research Committee, chaired by the respective Associate Dean (Research) or equivalent. The information will be used by authorised staff for the purpose for which it was collected, and will be protected against unauthorised access and use. The names of successful applicants and a summary of their projects will be reported to relevant Faculty committees and senior officers.

If you do not provide all of the information requested on this form, your application may be deemed ineligible and removed from consideration by the committees. You may access any personal information you have provided to the University by contacting 13 6352. The University of Melbourne is committed to protecting personal information provided by you in accordance with the Privacy and Data Protection Act 2014 (Vic). All information collected by the University is governed by the University's Privacy Policy. For further information about how the University deals with personal information, please refer to the University's Privacy Policy or contact the University's Privacy Officer at privacy-officer@unimelb.edu.au.

Curriculum Vitae and Research Outputs

* indicates a required field

Performance Relative to Opportunity

Do you wish your application to be considered with respect to Performance Relative to Opportunity (PRO)?

- Yes
- No

Please outline your case (max 5000 characters). Consideration of PRO facilitates positive acknowledgement of what has been achieved by academic staff given the opportunities available. Personal circumstances relevant in assessing PRO include care relationships, medical conditions and part-time and flexible working arrangements. Relevant career interruptions include parental leave and extended sick leave. Relevant leave of absence may include leave authorised to enable an academic to undertake an industry secondment or similar career development activity outside the academy. Other circumstances may include natural disasters (such as the Australian bushfires in 2019-2020), global health issues (such as the COVID-19 pandemic) and emergency situations with significant or longer-term impacts.

Word count:

Must be no more than 5000 characters.

Your Research

What is your research about and why is it important?

Word count:

Must be no more than 5000 characters.

Curriculum Vitae and Research Outputs [30%]

This section should be brief, use dot points where possible and adhere to the word limits. Where appropriate, all details should be listed in reverse chronological order.

Please focus on the **most recent five years**.

Full details of education, postgraduate training, present and past appointments *

2025 Kaye Merlin Brutton Bequest Form Preview

Word count:
Must be no more than 500 words.

Seminar/conference presentations (details of conference, indicate if invited talk, selected for oral, or poster presentation) *

Word count:
Must be no more than 500 words.

Details of awards or prizes (include \$ amount, where applicable) *

Word count:
Must be no more than 300 words.

Details of any postgraduate and undergraduate teaching and supervision (including demonstrating, tutor roles or co-supervision of students) *

Word count:
Must be no more than 300 words.

Administrative responsibilities, including laboratory, departmental, faculty/school and institutional *

Word count:
Must be no more than 300 words.

Leadership and service activities related to scientific discipline or the University of Melbourne (e.g. membership of societies and committees, peer review experience, administrative responsibilities) *

Word count:

Word count:
Must be no more than 300 words.

Please list your three best research outputs with brief summaries outlining your contribution and the impact they have made in your field *

Project Details

* indicates a required field

Activity type

Please select the activity type below.

Pure basic research is experimental and theoretical work undertaken to acquire new knowledge without looking for long term benefits other than the advancement of knowledge.

Strategic basic research is experimental and theoretical work undertaken to acquire new knowledge directed into specified broad areas in the expectation of useful discoveries. It provides the broad base of knowledge necessary for the solution of recognised practical problems.

Applied research is original work undertaken primarily to acquire new knowledge with a specific application in view. It is undertaken either to determine possible uses for the findings of basic research or to determine new ways of achieving some specific and predetermined objectives.

Experimental development is systematic work, using existing knowledge gained from research or practical experience, that is directed to producing new materials, products or devices, to installing new processes, systems and services, or to improving substantially those already produced or installed.
